#### SECTION V - FIRE FIGHTING MEASURES

- Flash Point (Method Used):** > 625° when FFA < 0.05%
- Flammability Classification:** Combustible liquid - Class IIIB
- Extinguishing Media:** UL listed Type K fire extinguisher, UL wet chemical extinguishing system or water spray.
- Special Firefighting Procedures:** Move exposed containers from fire area if possible. Do not use water to extinguish fire as it may spread fire by dispersing the oil. Water may be used to keep fire exposed containers cooled.
- Unusual Fire & Explosion Hazards:** Rags and waste paper containing this material may heat and burn spontaneously. When material presenting a large surface area, such as rags, filter clay etc., is saturated with liquid vegetable oils or by products, spontaneous combustion may result.
- Hazard Thermal Decomposition Products:** Does not decompose up to 400°F
- Protection of Firefighters:** Fire fighters should wear proper equipment and self-contained breathing apparatus with full face plate

#### SECTION VI - ACCIDENTAL RELEASE MEASURES

- Personal Precautions:** See below
- Environmental Precautions:** Advise authorities if product enters sewers.
- Methods for Cleaning Up:** Soak up with absorbent material such as paper, rags, or sawdust. Sweep up solidified material. Clean area with detergent.
- Waste Disposal Method:** Dispose of in accordance with local, state and federal regulations.

**Formula:** 120508BHVCS-2

**Date Prepared:** 4/28/09

**Page 2 of 4**

#### SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

- Safe Handling:** Use with caution around heat, sparks, static electricity and open flames.
- Storage Requirements for Storage Areas and Containers:** Store in cool, dry well ventilated storage area. Store away from flame and fire AND excessive heat.

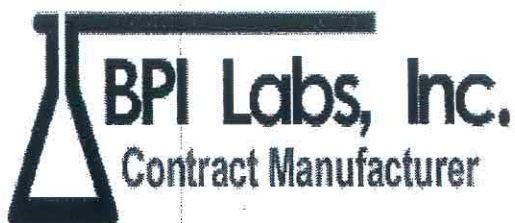

#### SECTION VIII - STABILITY AND REACTIVITY

**Stability/Instability:** Spontaneous combustion can occur.

**Incompatible Materials:** None

**Hazardous Polymerization:** Will not occur.

#### SECTION IX – EXPOSURE CONTROLS AND PERSONAL PROTECTION

**Eye:** Splash goggles or face shield

**Skin/Body:** Gloves & Aprons should be worn.

**Respiratory:** Use adequate ventilation or NIOSH-approved respiratory devices in the presence of vegetable oil mists.

**Ventilation:** Intermittent clean air exchange recommended but not required.

**Other:** Evaluate need based on application.

**Work/Hygiene Practice:** Normal good work practice.

#### SECTION X - PHYSICAL CHARACTERISTICS

**Physical State:** Solid flakes or pale yellow, oily liquid with faint odor in liquid state.

**Color:** Pale yellow

**Odor:** Characteristic of vegetable oil, faint

**Vapor Density:** > 1.0

**Boiling Point: (@ 760 mmHg)** Not Available

**Specific Gravity:** 0.920-0.925

**Weight per Gallon:** 7.7 lbs @ 60°

**Evaporation Rate:** N/A

**Solubility in Water:** Insoluble

#### SECTION XI - STABILITY AND REACTIVITY

**Stability/Instability:** Spontaneous combustion can occur.

**Incompatible Materials:** None

**Hazardous Polymerization:** Will not occur.
