

## SAFETY DATA SHEET

Complete Pool Controls

**1. Identification of the substance/preparation and of the company/undertaking****1.1 Product Identifier** Ultimate Multifunctional Floating Dispenser**1.2 Relevant Identified uses of the substance or mixture and uses advised against**

Uses: For disinfection of pool and spa water.

Restrictions: At this time we do not yet have information on identified restrictions.

**1.3 Details of the supplier of the safety data sheet**

Company: Complete Pool Controls Ltd  
 Unit 2, The Park  
 Stoke Orchard  
 Bishops Cleeve  
 Gloucestershire  
 GL52 7RS

Telephone: +44 (0) 8712 229081

Fax: +44 (0) 8712 229083

E-mail: [sales@cpc-chemicals.co.uk](mailto:sales@cpc-chemicals.co.uk)**1.4 Emergency Telephone**

Tel: +44 (0) 8712 229081 (office hours) +44 (0) 1242 300271 ( outside of office hours)

**2. Hazard Identification****2.1 Classification of the substance or mixture****Classification according to Regulation (EC) No 1272/2008****Hazard Class Hazard Statements**

Ox. Sol. 2	H272
Acute Tox. 4 *	H302
Eye Irrit. 2	H319
STOT SE 3	H335
Aquatic Acute 1	H410

Repro1B

For the full text of the H statements mentioned in this section see Section 16.

**Most important adverse effects**

Human Health: See section 11 for toxicological information.

Physical &amp; Chemical Hazards: See section 9 for toxicological information.

Potential environmental effects: See section 12 for toxicological information.

**2.2 Label elements****Labelling according to Regulation (EC) No 1272/2008**

Hazard symbols:    

Signal word: Danger

Hazard statements: H272 May intensify fire; oxidiser  
 H302 Harmful if swallowed.  
 H319 Causes serious eye irritation  
 H360 May damage fertility or the unborn child  
 H400: Very toxic to aquatic life  
 H410: Very toxic to aquatic life with long lasting effects  
 H335+H336: May cause respiratory irritation. May cause drowsiness or dizziness  
 EUH031 Contact with acids liberates toxic gas.

Warning! Do not use together with other products. May release dangerous gases (chlorine).  
 Use biocides safely. Always read the label and product information before use.

Precautionary statements: P102 Keep out of reach of children  
 P402 Store in a dry place.  
 P305+351+338 IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing

**Hazardous components which must be listed on the label** Trichloroisocyanuric Acid**2.3 Other Hazards** No other information is available.

**3. Composition/information on ingredients**

**3.1 Substances**

Chemical nature: Solid

Trichloroisocyanuric Acid

CAS No	ENICS No	%	CLP Classification
87-90-01	201-782-8	75 - 100	H272: H302; H319; H360: H400; H410; H335; H336; EUH031

**4. First Aid measures**

**4.1 Description of first aid measures**

General Advice: Take off all contaminated clothing immediately.

If inhaled: Move to fresh air. Remove contaminated clothing and loosen remaining clothing. Seek immediate medical advice.  
In case of unconsciousness place patient stably in side position for transportation

In case of skin contact: Drench the skin with plenty of water. Remove contaminated clothing and wash before reuse. If large areas of the skin is damaged or if irritation persists seek medical attention

In case of eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Consult an eye specialist immediately. Go to an ophthalmic hospital if necessary.

If swallowed: Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Call a physician immediately.

**4.2 Most important symptoms and effects, both acute and delayed**

Symptoms: No further information available.

Effects: No further information available.

**4.3 Indication of immediate medical attention and special treatment needed**

Treatment Treat Symptomatically.

**5. Fire fighting measures**

**5.1 Extinguishing media:**

Suitable media: Powder or carbon dioxide

Unsuitable media: Foam or water

**5.2 Special hazards arising from the substance or mixture**

Specific Hazards In case of fire, the following can be released:  
Nitrogen oxides (NOx) and Hydrogen chloride (HCl)

**5.3 Advice for fire-fighters**

Special protective equipment Fire-fighters should wear full protective clothing and self-contained breathing apparatus (SCBA). Thoroughly decontaminate fire-fighting equipment including all fire fighting wearing apparel after the incident.

Further Information: Collect contaminated fire extinguishing water separately.

## 6. Accidental release Measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions: Use personal protective equipment. Provide adequate ventilation.  
For personal protection see section 8.

### 6.2 Environmental precautions

Environmental precautions: Do not flush into surface water or sanitary sewer system.  
Avoid subsoil penetration  
If the product contaminates rivers and lakes or drains inform respective authorities  
Local authorities should be advised if significant spillages cannot be contained

### 6.3 Methods and materials for containment and cleaning up

Cleaning up Sweep up, avoiding generation of dust, then immediately spread as a thin layer in an uncontaminated, dry open area, to avoid the possibility of hot spots forming. Gradually hose to drain ensuring large dilution. DO NOT store or transport swept up material. DO NOT return spilled material to original container. Do not add small amount of water to material. Where a spill has occurred in a confined space or an unventilated building and the material is damp and evolving chlorine, the rate of chlorine evolution can be reduced by covering the thinly spread solid with soda ash.  
For large spills notify Emergency Services.

### 6.4 Reference to other sections

For personal protection see section 8

## 7. Handling and storage

### 7.1 Precautions for safe handling

Advice on safe handling: Strong oxidising agent. DO NOT MIX WITH OTHER CHEMICALS. Mix only with water.  
Never add water to product. Always add product to water. Use clean dry dispensing equipment.

Hygiene measures: Keep away from food, drink and animal feeding stuffs. Smoking, eating and drinking should be prohibited in the application area. Wash hands before breaks and at the end of the work day. Take off all contaminated clothing immediately. Provide adequate ventilation. **Avoid contact with the skin and eyes.**

### 7.2 Conditions for safe storage, including any incompatibilities.

Storage areas: Store in a cool, dry, well-ventilated area.  
Containers: Keep this product in original, sealed container when not in use.  
Protection against fire: Normal measures for preventive fire protection  
Further information: Keep away from children  
Common storage: Do not store together with acids

7.3 Specific end uses No information is available.

## 8. Exposure control/personal protection

8.1 Control parameters Contains no substances with occupational exposure limit values

### 8.2 Exposure controls

**Engineering measures** Fume cupboard required when vapours/aerosol are generated.

#### Personal protective equipment

Respiratory protection Use suitable respiratory protective device when high concentrations are present.  
Filter P2 Filter P3

Hand protection Wear suitable chemical resistant gloves  
Glove Material Nitrile Rubber - NBR / Butyl rubber - BR / PVC / Fluorocarbon rubber (Viton)

Eye protection Tightly fitting safety goggles.

Skin and body protection Plastic apron, sleeves, boots-if handling large quantities

#### Environmental exposure controls

General advice: General room ventilation plus local exhaust should be used to maintain exposure below TLV. Eyewash and emergency shower facilities recommended. Remove and wash contaminated clothing before reuse.

**9. Physical and chemical properties****9.1 Information on basic physical and chemical properties**

Form:	Tablets
Colour:	Whitish
Odour:	Characteristic chlorine
pH @ 20°C:	2.0 - 2.7
Melting Point	225°C
Boiling point/boiling range:	Undetermined
Flammability (solid, gas)	Not applicable
Density @ 20°C:	ca. 2.5 g/cm <sup>3</sup>
Water solubility:	12 g/ 25 °C
Explosive properties:	If mixed with ammonia or sodium hydroxide and Cyanuric acid
Oxidising properties:	Product is an oxidiser

**9.2 Other Information****10. Stability and reactivity****10.1 Reactivity**

Reactivity No information available

**10.2 Chemical stability**

Chemical stability No decomposition if stored normally

**10.3 Possibility of hazardous reactions**

Hazardous reactions: Gives off hydrogen by reaction with metals. Reacts exothermic with water.

**10.4 Conditions to avoid**

Conditions to avoid High temperature. Poor ventilation. Contamination. Moisture/high humidity.

**10.5 Incompatible materials**

Materials to avoid Strong exothermic reaction with acids. Reacts with flammable substances. Reacts with acids releasing chlorine. Reacts with reducing agents.

**10.6 Hazardous decomposition products**

Haz. Decomp. products: Nitrogen oxides (NO<sub>x</sub>)  
Chlorine

**11. Toxicological Information****11.1 Information on toxicological effects****Acute Toxicity**

	Value type	Value	Species
Oral	LD50	406 mg/kg	Rat

**Primary Irritant effect**

On the skin: Powder may irritate skin after prolonged contact.

On the eye: Particles in the eyes may cause irritation and smarting

**Carcinogenic** This product is not listed as a carcinogen

**Mutagenic** Currently we do not have any information from our supplier about this.

**Sensitization:** No sensitizing effects known

**Additional toxicological information:** No specific symptoms noted.

**12. Ecological Information****12.1 Toxicity****Acute Toxicity**

EC50	0.2	mg/l	(daphnia)
LC50	0.3	mg/l	(Danio rerio (Zebraabärbling))

This product is toxic to fish and aquatic organisms.

Salts, acids and bases are typically diluted and neutralised when released to the environment in small doses.

**DO NOT** discharge effluent containing this product into lakes, streams, ponds or estuaries, oceans or their waters unless in accordance with the applicable regulatory requirements.

**DO NOT** discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority.

**12.2 Persistence and degradability**

Persistence and degradability No data available

**12.3 Bioaccumulative potential**

Bioaccumulative potential No data available

**12.4 Mobility in soil**

Mobility in soil soluble in water, predicted to have high mobility in soil.

**12.5 Results of PBT and PvB :**

PBT and PvB : Not a PBT according to REACH Annex XIII

**12.6 Other adverse effects**

Other adverse effects No data available

**13. Disposal Considerations****13.1 Waste treatment methods**

Product: Disposal together with normal waste is not allowed. Special disposal is required according to local regulations. Do not let product enter drains. Contact waste disposal services.

Contaminated packaging: Empty contaminated packaging thoroughly. They can be re-cycled after thorough and proper cleaning. Packaging that cannot be cleaned is to be disposed of in the same manner as the product

Waste Catalogue No: No waste code according to the European Waste Catalogue can be assigned for this product, as the intended use dictates the assignment. The waste code is established in consultation with the regional waste disposer.

**14. Transport Information**

**14.1 UN Number** 2468

**14.2 UN proper shipping name** TRICHLOROISOCYANURIC ACID, DRY

**14.3 Transport hazard class(es)**

Class 5.1  
 Classification Code 5.1  
 Hazard label 50  
 Transport Category O2  
 Tunnel Code E  
 Excepted Quantities E1  
 Limited Quantities 1kg

**14.4 Packaging Group** II

(Continued on Page 6)

#### 14. Transport Information

##### 14.5 Environmental hazards

Environmentally Hazardous	Yes
Marine Pollutant	Yes

##### 14.6 Special precautions for user

##### 14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

#### 15. Regulatory information

##### 15.1 Safety, health and environmental regulations/legislation specific for this substance or mixture.

##### 15.2 Chemical Safety Assessment

Currently we do not have any information from our supplier about this.

#### 16. Other information

Full text of H-statements referred to under sections 2 and 3

H272	May intensify fire; oxidiser.
H302	Harmful if swallowed.
H319	Causes serious eye irritation.
H335	May cause respiratory irritation.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
EUH031	Contact with acids liberates toxic gas.

##### Further information

Restricted to professional users. Attention - Avoid exposure- obtain special instructions before use
