

Legal Disclaimer

The information and recommendations in this publication are, to the best of our knowledge, information and belief, accurate at the date of publication. Nothing herein is to be construed as a warranty, express or implied. In all cases it is the responsibility of the users to determine the applicability of such information or the suitability of any products for their own particular purpose.

1. Section 1: Identification of the substance/mixture and the company/undertaking.

1.1 Product identifier.

Product name: Essentials Spa Filter Cleaner Sachet Immerse 100g
Product code: 20 86 580 001

1.2 Relevant identified uses of the substance or mixture and uses advised against.

Uses: Disinfection of swimming pool water
Restrictions: At this time we do not have information of use restrictions

1.3 Details of the supplier of the safety data sheet.

Name of supplier: Golden Coast Ltd
Address of supplier: Fishleigh Road, Roundswell Commercial Park West, Barnstaple, Devon. EX31 3UA
Phone number: 01271 378 100
Responsible person: Jamie Adams
Email: swimmer@goldenc.com
Web address: www.goldenc.com

1.4 Emergency phone number: 01271 378 100 (office hours)

2. Section 2: Hazards identification.

2.1 Classification of the substance or mixture.

Classification according to Regulation (EC) No 1272/2008

Hazard Class	Hazard Category	Target Organs	Hazard Statements
Skin Corrosion	Category 1B		H314
Aquatic Toxicity	Category 1		H411

For the full text of the H statements mentioned in this section see Section 16.

Most important adverse effects

Human Health: See section 11 for toxicological information
Physical & Chemical Hazards: See section 9 for physiochemical information
Potential environmental effects: See section 12 for environmental information

2.2 Label elements.

Labelling according to Regulation (EC) No 1272/2008

Hazard symbols:

Signal word: Danger

Hazard statements: H314: Causes severe skin burns and eye damage
H411: Very toxic to aquatic life with long lasting effects.

Legal Disclaimer

The information and recommendations in this publication are, to the best of our knowledge, information and belief, accurate at the date of publication. Nothing herein is to be construed as a warranty, express or implied. In all cases it is the responsibility of the users to determine the applicability of such information or the suitability of any products for their own particular purpose.

Prevention:	P260:	Do not breathe vapours
	P273:	Avoid release to the environment
	P280:	Wear protective gloves/protective clothing/eye protection/face protection.

Hazardous components which must be listed on the label

Sodium Hydroxide and Sodium Metasilicate

2.3 Other hazards.

No other information is available.

3. Section 3: Composition/information on ingredients.

3.2 Mixtures.

Sodium Hydroxide

CAS No:	EC No:	Index No:	%	CLP Classification
1310-73-2	215-185-5	011-002-00-6	10-25%	H314

Sodium meta-Silicate, Pentahydrate

10213-79-3	229-912-9	014-010-00-8	10-25%	H290;H314;H335
------------	-----------	--------------	--------	----------------

Sodium carbonate

497-19-8	207-838-8	011-005-00-2	10-25%	H319
----------	-----------	--------------	--------	------

Sodium dichloroisocyanurate, dihydrate

51586-86-0	220-767-7	613-030-01-7	2.5-10%	H302; H319;H335;H400;H410
------------	-----------	--------------	---------	------------------------------

Contains: Mixture of listed substances with non-hazardous additions.

4. Section 4: First aid measures.

4.1 Description of first aid measures.

General advice: Take off all contaminated clothing immediately.

If Inhaled: In case of accident by inhalation; remove casualty to fresh air and keep at rest. If breathing is irregular or stopped, administer artificial respiration. Call a physician immediately.

In case of skin contact: Wash off immediately with plenty of soap & water. If irritation appears seek medical advice.

In case of eye contact: Rinse immediately with plenty of water, also under the eyelids for at least 15 minutes. Remove contact lenses. Consult an eye specialist immediately. Go to an ophthalmic hospital if possible.

Legal Disclaimer

The information and recommendations in this publication are, to the best of our knowledge, information and belief, accurate at the date of publication. Nothing herein is to be construed as a warranty, express or implied. In all cases it is the responsibility of the users to determine the applicability of such information or the suitability of any products for their own particular purpose.

If swallowed: Clean mouth with water and drink plenty of water. Never give anything by mouth to an unconscious person. If swallowed, do not induce vomiting – seek medical advice. If a person vomits when lying on his back place him in the recovery position.

4.2 Most important symptoms and effects, both acute and delayed.

Symptoms: No further information available.

Effects: No further information available.

4.3 Indication of any immediate medical attention and special treatment needed.

Treatment: Treat symptomatically

Effects: No further information available.

5. Section 5: Firefighting measures.**5.1 Extinguishing media.**

Suitable media: CO₂, powder or water spray. Fight larger fires with water spray/alcohol resistant foam.

Unsuitable media: Water with full jet.

5.2 Special hazards arising from the substance or mixture.

Specific Hazards: Nitrogen Oxides (Nox); Carbon monoxide (CO); Hydrogen chloride (HCl).

5.3 Advice for firefighters.

Protective equipment: In the event of fire, wear self-contained breathing apparatus.

Wear appropriate body protection (full protective suit).

6. Section 6: Accidental release measures.**6.1 Personal precautions, protective equipment and emergency procedures.**

Personal Precautions: Avoid formation of dust.

Wear protective equipment. Avoid contact with skin and eyes.

6.2 Environmental precautions.

Environmental precautions: In case of seepage into the ground inform responsible authorities

Do not allow to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up.

Cleaning up: Pick up mechanically. Use neutralizing agent. Dispose of contaminated material as waste according to item 13.

6.4 Reference to other sections.

For safe handling see section 7

For personal protection see section 8

For disposal information see section 13

Legal Disclaimer

The information and recommendations in this publication are, to the best of our knowledge, information and belief, accurate at the date of publication. Nothing herein is to be construed as a warranty, express or implied. In all cases it is the responsibility of the users to determine the applicability of such information or the suitability of any products for their own particular purpose.

7. Section 7: Handling and storage.**7.1 Precautions for safe handling.**

Advice on safe handling: Thorough dedusting. Prevent formation of dust.

Hygiene measures: Keep away from food, drink and animal feeding stuffs. Smoking, eating and drinking should be prohibited in the application area. Wash hands before breaks and at the end of the work day. Take off all contaminated clothing immediately. Provide adequate ventilation. Avoid contact with skin and eyes.

7.2 Conditions for safe storage, including any incompatibilities.

Storage areas: No special measures required.
Fire and explosion: No special measures required.
Further information: No further information available.
Common storage: Store away from oxidising agents
Storage temperatures: Cool & dry.

7.3 Specific end use(s).

Specific use(s): No information available.

8. Section 8: Exposure controls/personal protection.**8.1 Control parameters.**

EU. Indicative Exposure and Directives relating to the protection of risks related to work exposure to chemical, physical and biological agents.

Component: Sodium hydroxide**CAS No: 1310-73-2**

Regulatory Basis: UK. EH40 Workplace Exposure Limits (WELS)
Regulatory List: EH40 WEL.
Value type: Short Term Exposure Limit (STEL)
Value: 0.02 mg/m³

Component: Sodium dichloroisocyanurate, dihydrate**CAS No: 51580-86-0**

Regulatory List: EU ELV
Value: Short Term Exposure (STEL) 0.07 mg/m³
Value: Long Term Exposure (LEV) 0.02 mg/m³

8.2 Exposure controls.**Engineering measures**

Refer to protective measures listed in sections 7 and 8.

Personal protective equipment**Respiratory protection**

Low exposure: Respiratory filter device
Intensive exposure: Self-contained respiratory protective device .

Legal Disclaimer

The information and recommendations in this publication are, to the best of our knowledge, information and belief, accurate at the date of publication. Nothing herein is to be construed as a warranty, express or implied. In all cases it is the responsibility of the users to determine the applicability of such information or the suitability of any products for their own particular purpose.

Hand protection: Use protective gloves.
Eye protection: Chemical goggles.
Skin and body protection: Protective clothing.

Environmental exposure controls

General advice: Do not flush into surface water of sanitary sewer systems
Avoid subsoil penetration
If the product contaminates rivers and lakes or drains inform respective authorities.
If the product reaches soil inform respective authorities.

9. Section 9: Physical and chemical properties.**9.1 Information on basic physical and chemical properties.**

Form: Solid
Colour: Colourless
Odour: Characteristic
Odour Threshold: Currently we do not have any information from our supplier about this.
pH @ 20°C: No information available.
Melting point: Undetermined.
Boiling point: 1390°C
Flash point: Not applicable
Upper explosion limit: Not applicable
Lower explosion limit: Not applicable
Density @ 20°C: Not determined
Water solubility: Completely soluble
Partition coefficient:n-octanol/water: No information available.
Ignition temperature: 250°C
Explosion properties: Product does not present an explosion hazard

9.2 Other Information

No further information available.

10. Section 10: Stability and reactivity.**10.1 Reactivity.**

Reactivity: Stable under normal use and storage conditions

10.2 Chemical stability.

Chemical stability: No decomposition if stored and applied as directed.

10.3 Possibility of hazardous reactions.

Hazardous reactions: None reasonably foreseeable

10.4 Conditions to avoid.

Conditions to avoid: High temperatures. Poor ventilation. Contamination

Legal Disclaimer

The information and recommendations in this publication are, to the best of our knowledge, information and belief, accurate at the date of publication. Nothing herein is to be construed as a warranty, express or implied. In all cases it is the responsibility of the users to determine the applicability of such information or the suitability of any products for their own particular purpose.

10.5 Incompatible materials.

Materials to avoid: Acids.

10.6 Hazardous decomposition products.

Haz.Decomp.Products: Chlorine.

11. Section 11: Toxicological information.**11.1 Information on toxicological effects.**

Sodium hydroxide			
Value type	Species	Value	
LD50	Rat	2,000	Mg/kg
Sodium dichloroisocyanurate, dihydrate			
LD50	Rat	1,400	Mg/kg

Primary irritant effect:**On the skin:**

Strong caustic effects on the skin and mucous membranes.

On the eyes:

Strong caustic effect

Sensitization:

No sensitizing effects known.

Further information:

Swallowing will lead to strong caustic effect on the mouth and throat and to the danger of perforation of the oesophagus and stomach.

Handle in accordance with good industrial hygiene and safety practise.

12. Section 12: Ecological information.**12.1 Toxicity.**

Toxicity: Toxic for fish

12.2 Persistence and degradability.

Persistence and degradability: No information available.

12.3 Bioaccumulation potential.

Bioaccumulative potential: No information available

12.4 Mobility in soil.

Mobility in soil: No information available.

12.5 Results of PBT and vPvB assessment.

Remarks: No information available.

12.6 Other adverse effects.

Remarks: Water hazard class 2 (German regulation)(Self-assessment): hazardous for water.
Danger to drinking water even if small quantities leak into the ground.
Also poisonous for fish and plankton in water bodies
Toxic for aquatic organisms.

Legal Disclaimer

The information and recommendations in this publication are, to the best of our knowledge, information and belief, accurate at the date of publication. Nothing herein is to be construed as a warranty, express or implied. In all cases it is the responsibility of the users to determine the applicability of such information or the suitability of any products for their own particular purpose.

13. Section 13: Disposal considerations.**13.1 Waste treatment methods.**

- Disposal should be in accordance with local, state or national legislation
- Do not reuse empty containers without commercial cleaning or reconditioning.
- Do not discharge into drains or the environment, dispose to an authorised waste collection point.

Classification

Waste Codes in accordance with the European Waste catalogue (EWC) are origin-defined. Since this product is used in several industries, no Waste Code can be provided by the supplier. The Waste Code should be determined in arrangement with your waste disposal partner or the responsible authority.

14. Section 14: Transport information.**14.1 UN number.**

3262

14.2 UN proper shipping name.

Corrosive solid, basic, inorganic, n.o.s (Sodium Hydroxide Solid)

14.3 Transport hazard class(es).

Class: 8

Classification code: M6

Hazard label: 9

Transport Category: 3

Tunnel: E

LQ: 1 kg

14.4 Packing group.

II

14.5 Environmental hazards.

Classified as environmentally hazardous

14.6 Special precautions for user.

Note: No information available

14.7 Transport in bulk according to annex II of MARPOL 73/78 and the IBC code.

Note: No information available.

15. Section 15: Regulatory information.**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture.**

No information available.

15.2 Chemical safety assessment.

No information available.
